We are proud to offer a full line of light-, medium- and heavy-duty Rescue and Specialty Vehicles built by Custom Truck & Body Works, Inc. of Woodbury, Georgia. Designed and engineered specifically for your department or organization, our vehicles are sure to meet your needs.

With the wide variety of options and configurations available for your vehicle, our staff of expert consultants employ their many years of service and expertise to meet with you and plan exactly how your vehicle will be configured. The custom layout and equipment on your new rescue will enable you to perform your mission in a highly efficient manner.

Our Consultants are *not* salespeople. Because we have been in the Emergency Services field in both career and volunteer capacities, we are well versed on how things work in the ‘real’ world.

Every client and department person we speak with is also an opportunity to learn something new – an interesting perspective on performing a task. We bring this knowledge to the table when helping you plan your next

vehicle purchase. We are in the ‘relationship’ business – we will be a resource for you throughout the life of your Rescue truck.

If it's a vehicle to meet the needs of Law Enforcement, the Department of Homeland Security, Fire Departments, Rescue Squads Police or more, we can supply it. Whether it's a command vehicle, communications truck, rehab unit, mobile clinic, crime scene investigation or SWAT vehicle, we can make it happen. Built from the ground up, our vehicles will please the most discerning customer with the most demanding needs.

For your next Rescue or Specialty Vehicle, please call us. We would be honored to be your vendor of choice when looking to replace a vehicle or add to your department's capabilities.

Custom Truck & Bodyworks

The 40,000 square foot production facility Custom Truck & Bodyworks occupies is located in Woodbury, GA. They employ a staff of highly trained, skilled and dedicated craftsmen. It is their goal that, at the time of delivery, there are ZERO defects in workmanship.

Before construction begins on your vehicle, a Pre-Build Conference is held at your location or at the plant. At this meeting, reps from both **TransAtlantic Associates** and **Custom Truck & Bodyworks** meet with the client to develop the scope of work for the vehicle, taking into account your needs and the specific mission of the emergency vehicle.

We believe it is important that the client be involved in every aspect of their vehicle's construction. Throughout the process, you are welcome to visit the production facility. You are also provided with your own production page on our website allowing you to watch your vehicle grow from a set of technical plans to an actual emergency vehicle. *We feel that this "hands-on" approach gives our customers the opportunity to be actively involved in the entire process.*

We look forward to working with you on your next vehicle purchase. Call **TransAtlantic Associates** today for a free, no-obligation consultation.

Why Choose Us?

- **FAST DELIVERY**

Most of our vehicles are ready for delivery 90 to 120 days after receiving the vehicle chassis. When you need a truck *fast*, choose TransAtlantic Associates!

- **LIFETIME STRUCTURAL WARRANTY**

Because of our lifetime structural warranty, you can rest assured your vehicle will perform for a LONG time. Cost of ownership over the life of your vehicle is a concern for our clients. If you are looking for a rig that will last for years to come, look no further than TransAtlantic Associates.

- **FREE ANNUAL MODULAR PM's**

We are absolutely committed to developing a long-lasting relationship with our clients. Annually, our consultants will provide a free modular preventative maintenance on your vehicle. It's just our way of ensuring any issues you may have with your rig are identified and fixed before they become problems. For a company that provides service *after the sale*, trust TransAtlantic Associates.

These are just a few reasons why we should be the vendor of choice for your next vehicle.

Our Mission is to become *the* recognized leader in providing premier equipment and apparatus to our clients.

We are committed to meeting our clients' requirements by delivering reliable, long-lasting, high-quality solutions to their needs in a cost-effective manner.

TransAtlantic Associates is committed to developing successful business relationships built on mutual trust and respect while fostering a challenging and rewarding working environment for our greatest asset, our employees.
